

If your extension is associated with the
Housing Executive (disabled facilities grant)

ADP has a specialist department which can provide you with all the plans and approvals needed to complete your grant application. Our fees are competitive and refundable by the NIHE grants office - in full.

The type of extensions usually funded in a disabled facilities grant are ground floor bedrooms, shower rooms and WC rooms. Did you know that plans are also needed for bath-to-shower conversions, internal alterations and ramps? ADP can also provide you with plans for these.

We limit our fee to the amount allocated by the grants office so you can claim it back when all the work is done, you simply give our invoice receipt to the grants office and our fee will be added to your grant.

You can pay your ADP fees by cheque, credit or debit card. We can also offer an interest free easy-payment instalment plan.

Architectural Design Partnership;
providing architecture that
will exceed your expectations

Planning an extension
to your home?

ADP can help

ADP is a dynamic design and technical led architectural practice based in Holywood.

The studio was formed in 1999 by Eddie Weir who has evolved the practice into one of the most highly regarded architectural companies in N. Ireland.

Our philosophy is to listen and understand our client's needs and aspirations and provide them with elegant architectural solutions to match their budget. We believe that architecture should be more than just functional but add intrinsic value through excellence in design.

ADP create fabulous architecture with an informed use of technology and a clear understanding of materials. We combine a commitment to the spirit of the new, with a strong awareness of context. The practice has earned a widespread reputation for the high calibre of its work.

consultation with our team of
professionally qualified experts.

Did you know that professionally drawn plans could actually save you money? Many contractors add a contingency sum (extra charge) to their tenders and estimates to cover the areas on poorly drawn plans which are not properly detailed.

Architectural Design Partnership;
Architectural, Planning and Project
Management Consultants.

If you are looking to improve or extend your home ADP has the experience and flair to maximise the potential of your property. We will advise and guide you through the entire process of the building project.

Our services can be tailored to suit your individual project needs.

If you know what you want we will be happy to work with your brief. Alternatively if you are looking for inspiration we are able to produce design ideas to suit your space requirements.

Much of our business comes as a result of recommendations, and we aim to maintain our good reputation as a reliable and professional practice.

We believe in offering only the highest levels of quality and service.

We carry full professional Indemnity Insurance for your peace of mind.

Our drawings are all prepared using the latest computer aided design techniques to ensure accuracy.

Our prices are very competitive and subject to individual discussion. We will agree a price for our services at our first meeting and confirm this in writing. There are no hidden extras.

We offer a free, no obligation, site evaluation and design consultation.

ADP can provide a full range of services that will take your project from conceptual design to completion and handover.

To view the full range of our services, including our commercial projects, visit our website.

Our staff have a wealth of experience in residential architecture. We employ modern construction techniques in our designs, using the most current and sustainable materials available. Our technical knowledge of building and construction is second to none.

From our attention to detail when surveying to the comprehensive detail contained in the plans and documentation we produce, we pride ourselves on the high quality of service we provide.

Once you have requested our services we will look after everything for you until it is time to appoint a contractor.

If your project is being funded by a bank or building society, you may be required to provide completion certificates for funding to be released. ADP project manage many building schemes on site and can provide all of the necessary documentation and certificates for your lender (please note: only chartered professionals may do this).

The next step:

If you have a project in mind, or would just like to discuss an idea and/or explore your options, we would be happy to talk to you.
